

Nouredine Seffar
(1991~92)

I started teaching in the residential Business Program in August 1991, right after finishing an MBA in Arizona. I enjoyed socializing with the business students and I'll never forget the simulated cocktail parties or the lambada and line dancing at the end of the program parties. But I think I miss the little *tatami* house in Itabashi and the wonderful *taishokus* the most.
